## Château de Pressac – Saint-Emilion

**The most beautiful  
panoramic view over the  
village of Saint-Emilion !**

Perched on the plateau of Saint-Émilion, the Château de Pressac has been overlooking the valley for more than 6 centuries. Mentioned in the history of France, its name was given to a grape variety. Here, the vine and time are inseparably linked. Pleasant meeting and tasting with Mr. Jean-François Quenin, the owner (with his wife Dominique).
